"Oh, the most cruel, the most humiliating!"

"But what?"  
Miss Temple leaves me. She has given me to understand that, though she consented to enter my house, she was not aware that my position was legitimate, and that she finds it impossible to remain with me. I shall die! No. I will not die, but I will return to Paris no more.

M. Duverney was so seriously affected with chagrin that she was compelled to take her bed. She was visibly changed by her sorrow. The light forsook her eye. Finally, her lover, touched by her tears, her sorrows and sufferings, entered her apartment one morning, and said to her: "Do not weep, my dear; Miss Temple will remain with you." "Truly? How have you altered her resolution?" "I have just informed her that in eight days I will marry you."

The reader can judge of the effect of this announcement. M. Duverney was soon restored to health. In a few days she married her lover, Mr. Lyne Stevens, whose father was worth more than £90,000 of revenue, and who assured to his daughter-in-law a dowry of 200,000 francs. Ten years have elapsed since the marriage, and Mr. Stevens has never regretted it. It is Mr. and Mrs. Stevens who have just arrived at Paris, and have purchased l'Hotel Mole.

It is a striking example of the vicissitudes of human affairs that a simple *danscuse* becomes mistress of a grand mansion, where the memory of the old minister of Louis Philippe carries you back to that of the great Mathew Mole.—*Courier des Etats Unis.*

E. TOURJEE, Esq., is hereby authorized to transact for us any business connected with the News and Journal office, of this city.

### AMERICAN REPUBLICAN NOMINATION.

FOR MAYOR,  
WILLIAM J. SWINBURNE.

The Farmer's Guide to scientific and practical agriculture. Detailing the labors of the farmer in all their variety, and adapting them to the seasons of the year as they successively occur. By Henry Stephens, F. R. S. E., author of "The Book of the Farm," &c., assisted by John P. Norton, A. M., Professor of Scientific Agriculture in Yale College, New Haven.—In two volumes, royal octavo, with numerous illustrations. New York: Leonard Scott & Co. B. J. Tilley, Agent for New-  
port and vicinity.

This is the title of a work which every farmer ought to have. Whatever may be said against mere book-forming, certainly no considerate tiller of the soil, no one who has taken an agricultural paper, or has ever read a well written piece in the *family newspaper* upon any branch of farming, can question the real and great utility of book of scientific and practical facts and suggestions upon the nature of the soil, and the best methods of cultivating it. Of course the best school for a green hand in any branch of business, is found in practical and close contact with the daily operations of the branch he wishes to understand. But when one has been over the ground in a practical way, so as to become familiar with the routine of the labor to be performed, then science, a record of the experience and best methods of other laborers in the same field may be of the greatest use to him.—This is the very reason why a practical farmer ought to consult some reliable *Farmer's Guide*. If the energetic farmers of our Island could afford the time and expense of visiting twenty of the best managed farms in New England, New York and Ohio, giving to the observation of each a month's time, learning the new and successful methods that had been found avoidable by the working of each farmer thus consulted, we are sure they would, by comparing these methods with their own, at once acknowledge not o-ly the vast amount of new and pleasant information obtained, but the great practical utility of the suggestions resulting from such comparison.

The Farmer's Guide is the record of a much more thorough tour amongst good farmers, than the one above named. It is a grand encyclopedia of agricultural knowledge. It is not a theory of the farm, not a book of the closet, but written by a man who has had practical contact with the earth, and with all branches of farming operations.

There are two features of this work which are especially noticeable, and which render it a most desirable book for every day consultation. It is well and fully illustrated.—If one wishes to know what is the best chum for instance, here is a picture and description of it, so perfect that any man of ordinary ingenuity can make just such an one. So of all the illustrations, they are abundant and perfect. The first volume opens with fourteen exquisite cuts representing such specimens of poultry, swine, cows and horses, as would be likely to inspire every quiet man with a disposition for farming.—The other desirable feature of the work is its arrangement according to the seasons.—The work for spring is discussed in one part of the first volume, then follows summer and so on. The author commences with the *farm* on the first day of the season, and carries us through all the necessary and possible operations of spring, summer, autumn and winter in regular succession. This is of great advantage not only to the practical farmer, but to any one who wishes to con-

sult the work for any particular month in the year. We are free to say, after a careful examination of this work, that in an available form there is no book on agriculture so full, so accurate, and so cheap as this.

We refer our readers to the advertisement of Leonard Scott & Co., in another column.

Many of our citizens will be pleased to learn, that Mrs. Henderson is again in the city, and will lecture in AQUIDNECK HALL, on Wednesday evening.

The subject of her lecture cannot of course, be announced, as this is unknown to herself beforehand. Should she be as happy in her efforts as she has been on former occasions, no one would regret being present.

In the death of Robert W. Hammett the community has sustained a great loss; few men pass away from this earth who, through a long, laborious and consistent life, so thoroughly, faithfully and conscientiously discharge all their obligations, as him of whom we speak. Simple and uniform in his habits, unostentatious in his manners, noble and generous in his feelings, genial and sincere in his affections, he always sustained an irreproachable character—he was respected and beloved by all who knew him, and has gone from earth without leaving an enemy to his right against him.

He was a gentle and affectionate husband, a kind and tender father, and one of the noblest specimens of God's workmanship, a truly honest man.

The Rev. James C. Richmond has received a unanimous call to the Rectorship of St. Paul's Church, Milwaukee, Wisconsin, with a salary of three thousand dollars per annum and a parsonage. He is very popular there, and the call was not only unanimous, but very enthusiastic and urgent. The Episcopalians of Milwaukee will be very fortunate if they can secure his valuable services.

SPECIAL NOTICES.

WILLIAM H. SMITH,  
DENTIST.

Rooms directly over the Post Office.

THE SUMMER TERM of the BERKELEY INSTITUTE, will commence April 20th, and continue FOURTEEN WEEKS. See advertisement on first page.

IF PERRY DAVIS' VEGETABLE PAIN KILLER, Still Triumphant—and, after a thorough trial by innumerable living witnesses, it has proved itself to be The Medicine of the Age.

Although there have been many medicinal preparations before the public since the first introduction of Perry Davis' Pain Killer, and large amounts expended in their introduction, the Pain Killer has continued to steadily advance in the estimation of the world, as the best Family Medicine ever introduced.

The genuine Perry Davis' Pain Killer is now put up in panel bottles, with the words PERRY DAVIS' PAIN KILLER blown in the glass, and with two steel engraved labels on each bottle—one an excellent likeness of Perry Davis, the original inventor of the medicine, the other steel engraved note of hand—none other can be relied upon as genuine. Price of bottles, 12 1/2 cents, 25c, 50c, \$1 respectively.

PERRY DAVIS & SON, Proprietors.

No 74 High-street, Providence, R. I.

One word in regard to Perry Davis' Pain Killer. I have used that in my family for some two years, and take great pleasure in recommending it as a valuable medicine, that should be kept in every family. I have witnessed wonderful cures by its use—especially, within the last week, I have known a very severe case of rheumatism soon relieved and promising a speedy cure, by this in my estimation, invaluable remedy.

JABEZ S. SWAN,

Pastor of Huntington-street Baptist Church New London—Sold by all dealers in medicine.

A CARD TO THE LADIES.

Dr. DURONCA's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstructions from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many emaciations among young females. Headache, Pain in the Side, Palpitation of the Heart, Lethargy of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive. Price \$1.00 per box. For sale by HAZARD & CASWELL, 12 Washington Square, and 137 Thames-st., and 137 Newgate-st. They will supply the trade at manufacturer's prices. Ladies, by enclosing \$1.00 to STURGIS & CO., Box 24 Newgate Post Office, can have the Pills sent (confidentially) by mail to any part of the country.

SEC. 2. Every slave who shall come, or be brought, or be in this State, with the consent of his or her master or mistress, or who shall come, or be brought, or be, involuntarily in this State shall be free.

SEC. 3. Every person, who shall hold or attempt to hold, in this State, in slavery, or as a slave, any person mentioned as a slave in the second section of this act, or any free person of color, in any form, under any pretence, or for any time however short, shall be deemed guilty of felony, and on conviction thereof, shall be confined in the State prison or hard labor for a term not less than two nor more ten years.

ROBERT M. PATRICK

IF BALM OF A THOUSAND FLOWERS.—

A COUNTERFEIT.—A person pretending to have been a partner with W. Petridge in the above article is palming off a spurious preparation on the public. All are counterfeit unless the name of PETRIDGE & CO. is written on the side, and W. P. PETRIDGE & CO., printed on the front of the label. The genuine article is for sale by all respectable Druggists, who frown down counterfeits and impostors.

WHITE TEETH, Perfume, BREATH, and BRAIDED COMPLEXION can be acquired by using the "Balm of a Thousand Flowers."

What lady or gentleman would remain under the curse of a disagreeable breath, when by using the Balm of a Thousand Flowers would render it sweet.

WOMAN'S INTUITION.—The perception of a woman, says Shenstone, is quick as lightning.

Her penetration is intuition, almost instinct. By a glance she will draw a deep and just conclusion as to how she formed it and she cannot answer the question. A philosopher deduces inferences, and his inferences shall be right; but he gets to the head of the staircase, if I may so say, by slow degrees, mounting step by step.

She arrives at the top of the staircase as well as he; but whether she flew there is more than she knows herself. While she trusts her instinct, she is scarcely ever deceived; she is generally lost when she begins to reason.

A foolish youth makes a crazy old age.

Too dreadfully true.

# NEWPORT DAILY NEWS.

**Effects of Charcoal on Flowers.**  
The following extract cannot fail to be interesting to the botanist and the chemist, as well as to every lady who has a rose-bush in her garden, or a flower-pot in her parlor. It is from the Paris Horticultural Review. The experiments described were made by Robert Berauds, who says:

"About a year ago I made a bargain for a rose-bush of magnificent growth and full buds. I waited for them to blow and expected roses worthy of such a noble plant, and of the praise bestowed upon it by the vender. At length, when it bloomed, all my hopes were blasted. The flowers were of a faded color and I discovered that I had only a middling multiflora, slate-colored enough. I therefore resolved to sacrifice it to some experiments which I had in view. My attention had been captivated with the effect of charcoal, as stated in some English publications. I then covered the earth in the pot in which my rose-bush was, about half an inch deep with pulverized charcoal. Some days after, I was astonished to see the rose, which bloomed of as fine a lively rose color as I could wish."

## AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF  
Colds, Coughs, and  
Hoarseness.

BIRMINGHAM, Mass., 20th Dec., 1855.  
Dr. J. C. AYER.—I have at hand  
the best Remedy I have ever found  
for Colds, Hoarseness, Inflammation, and the  
concomitant symptoms of a Cold; your  
CHERRY PECTORAL. Its constant use in  
my practice and my family for the last  
ten years has shown it to possess super-  
ior virtues for the treatment of those  
complaints. EBBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of Utica, N.Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose that can be found. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

**Croup, Whooping Cough, Inflammation.**

Springfield, Miss., Feb. 7, 1856.  
Brother AYER:—I will cheerfully certify your PECTORAL  
is the best remedy we possess for the cure of Croup,  
Cough, and the chest diseases of children. We of  
our fraternity in the South appreciate your skill, and  
commend your medicine to our people.

HIRAM CONKLIN, M.D.

AMOS LEE, Esq., MONTPELIER, Vt., writes: "I have had a terrible Influenza, which confined me in my bed for six weeks; I have tried every Remedy, Conches, Hoarseness, Inflammation, and the  
concomitant symptoms of a Cold; your  
CHERRY PECTORAL. Its constant use in  
my practice and my family for the last  
ten years has shown it to possess super-  
ior virtues for the treatment of those  
complaints. EBBEN KNIGHT, M.D."

I have found nothing equal to your CHERRY PECTORAL for  
giving ease and relief to consumptive patients, or curing  
such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.
